Miller Nelson Instruments Price List

Effective Mar 21, 2019

Systems that can be delivered in 4-6 weeks.

Model	Flow-temp-humidity Control System	Price
HCS-501-20	Flow Range 2-20 LPM*	\$19,900
HCS-501-50	Flow Range 5-50 LPM	\$19,900
HCS-501-100	Flow Range 10-100 LPM	\$19,900
HCS-501-200	Flow Range 20-200 LPM	\$19,900
HCS-501-250	Flow Range 25-250 LPM	\$19,900
HCS-501-300	Flow Range 30-300 LPM	\$19,900
HCS-501-500	Flow Range 50-500 LPM	\$19,900

* To achieve flow rates less than 2-20LPM, utilize the HCS-501-20 and a low range flow controller transducer (MFC 260V-4S) to step down the flow rate to the desired level.

Custom instruments quoted upon request.

All HCS-501 series systems control ambient +2 to 35°C (or 20 to 35°C with cooling option) and 20 to 85% RH at 25°C. They come complete with regulators. All control systems use 120VAC, 50-60 Hz.

Terms: Net 30 Days

Accessories

501 Instrument Options	Price
Item CP-200, Cooling Option, for HCS	\$250.00
Item EC-501, External Control Option for HCS	\$1500.00
Temperature-RH Probe Items	
Item SJP-200b-5, Temperature-humidity probe w/ electronics & cable (HCS-501)	\$1195.00
Item SJP-200b-4, Temperature-humidity probe w/ electronics & cable (HCS-401)	\$995.00
Item M1101, Humidity Sensor	\$40.00
Item M1102, Temperature Sensor	\$15.00
Item SJP-PCB, Circuit board for SJP-200b	\$675.00
Item M4521, Tee adapter for SJP-200b slip in probe	\$96.00
Item SV-2000 , Solvent Vapor Generator	\$1875.00
Digital Mass Flow Controllers	
Model 601-AAASVCAA Low range flow controller transducer, 10 SCCM full scale	\$2415.00
Model 601-AAASVCAA Low range flow controller transducer, <i>20, 50, 100, 200, 500, 1000, 2000, & 5000 sCCM full scale</i>	\$2350.00
Item MN6910 Medium range flow controller transducer, 20 or 50 LPM full scale	\$2525.00
Item MN6911 High range flow controller transducer, 100 LPM full scale	\$2690.00
Item MN6912 High range flow controller transducer, 200, 250 or 300 LPM full scale	\$3315.00
Item MN6914 Highest range flow controller transducer, 500 LPM full scale	\$3400.00
Analog Mass Flow Controllers	
Model 251FKASVDAA Medium range flow controller transducer, 20 LPM full scale	\$2265.00
Model 251FKASVDAA Medium range flow controller transducer, 50 LPM full scale	\$2375.00
Model 202AFKASVDAA High range flow controller transducer, 100 LPM full scale	\$2540.00
Model 203AFKASVDAA High range flow controller transducer, 200, 250, or 300 LPM full scale	\$3165.00
Model 203AFKASVDAA Highest range flow controller transducer, 500 LPM full scale	\$3380.00
Model KB20045-000, Adapter 9 pin D to Card edge connector	\$350.00
Item ADF-2426 Flow controller power supply with cable	\$1575.00
Item MN-PWV , Pressurized Water Vessel	\$1195.00
Item MN-RHCC , RH Calibration Chamber	\$295.00
Item MN-105 , Conversion HCS-401 model to HCS-501 model	\$16,900.00

Prices valid for instrumentation sold and used in USA and Canada. Prices subject to change without notice.
