Project Name/No.: _____

Select chemicals for analysis from List A, B, or C following the rules below:

List A: Chemicals that can be analyzed from a single monitor using our standard solvent.

List B: Chemicals that require a different solvent for analysis in our laboratory. Chemicals in List B cannot be analyzed on the same monitor as chemicals from Lists A, or C.

List C: Chemicals that require a different solvent for analysis in our laboratory. Chemicals in List C cannot be analyzed on the same monitor as chemicals from Lists A, or B. Some exceptions (See © in List A).
